Operational Alerts

RAW RUBBER INDEX

$287.80 / kg

Leading indicator for all-steel truck tyre production costs.

- **Tyre Sourcing:** Indian tyre manufacturers signaling price hikes due to raw natural rubber costs. Accelerate fleet restocking protocols.
- **Paint Inputs:** Raw material (TiO2) prioritized for Franco-Valuta. Value-addition audits required for FX retention.
- **Plastics:** Middle East supply chains stabilizing. Ensure proforma invoices for PVC Resin are submitted rapidly.

Foreign Exchange (ETB Cross-Rates)

USD US Dollar	**161.72**
EUR Euro	**181.79**
GBP British Pound	**215.39**
CNY Chinese Yuan	**24.13**
AED UAE Dirham	**44.04**

MoTRI & Policy Directives

Revised Franco-Valuta Regulations

Ministry of Trade and Regional Integration (MoTRI) announces updated list of essential industrial inputs eligible for Franco-Valuta import without central bank queue. Tyres and specific chemicals remain under strict review.

Export Retention Policy

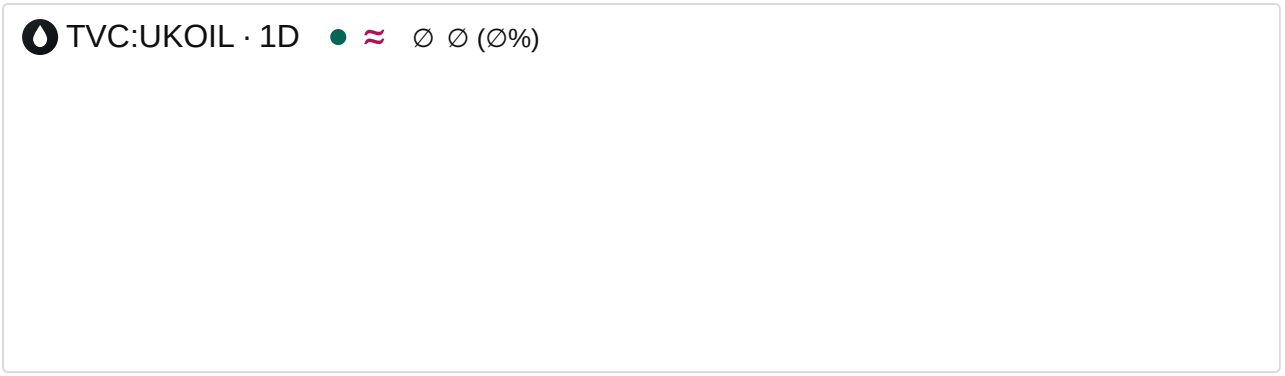

Exporters can retain 50% of foreign currency earnings in their accounts for up to 30 days to facilitate raw material import financing.

Industrial Park Tax Incentives

New circular detailing duty-free import parameters for manufacturing entities operating within Hawassa and Bole Lemi industrial parks. Focus on import substitution of plastics.

Global Energy Benchmark (Paint Solvent Proxy)

$109.69 / bbl

Red Sea & Djibouti Logistics

⚠ RED SEA ROUTING ALERT

High Risk Zone active. Major carriers diverting around Cape of Good Hope.

Port of Djibouti (SGTD)

Vessel congestion: Moderate (3-5 days wait)

OPERATIONAL

Djibouti-Addis Ababa Corridor

Shift 40% of chemical shipments to railway to bypass road delays.

CLEAR

Red Sea Transit

Extended routes add +14 days to inbound resin/pigment lead times.

DISRUPTED
